NOI No., if known: _____

INDUSTRIAL NO EXPOSURE EXCLUSION CERTIFICATION FORM

NEE - Version 2012

For Exclusion from NPDES General Permit No. GAR050000 (2012 IGP)
Authorization to Discharge Storm Water Associated with Industrial Activity

A. FACILITY LOCATION INFORMATION

FACILITY NAME: _____ PHONE: _____

STREET/LOCATION ADDRESS: _____

CITY: _____ COUNTY: _____ ZIP CODE: _____

LATITUDE: _____ LONGITUDE: _____ (Decimal degrees = XX.XXXX & -XX.XXXX)

MAILING ADDRESS: _____ CITY: _____ STATE: _____ ZIP CODE: _____

B. FACILITY OWNER-OPERATOR INFORMATION

LEGAL NAME: _____ PHONE: _____

MAILING ADDRESS: _____

CITY: _____ STATE: _____ ZIP CODE: _____

On-site Facility Contact: Name: _____ Telephone Number: _____

Title: _____ Email: _____

C. SITE INFORMATION

1. Name of river basin where facility is located: _____
Note: A map of Georgia's River Basins can be found at: www.gaepd.org/Files_PDF/news/basins_map.pdf.

2. Name of receiving waters: _____

3. Does the facility discharge into a Municipal Separate Storm Sewer System (MS4), as defined in Appendix A of the 2012 IGP?
YES [] NO []

If yes, name of MS4 Operator: _____ NEE submitted to the local MS4: YES []

4. a. Was the facility or site previously covered under NPDES General Permit No. GAR000000 for storm water discharges associated with industrial activity? YES [] NO []

b. Is the facility, or any portion thereof, covered under any other NPDES permits? YES [] NO []
PERMIT NO. (if applicable): _____

5. On the line below: Identify the 4-digit Standard Industrial Classification (SIC) code that best represents the products produced or services rendered for which the facility is primarily engaged, as defined as "primary industrial activity" in Appendix A of the 2012 IGP. Identify up to four, 4-digit secondary SIC codes for additional industrial activities, if applicable.

6. SIC CODE: Primary: _____ Secondary (if applicable): _____

NEE CERTIFICATION FORM – Version 2012

D. EXPOSURE CHECKLIST

Are any of the following materials or activities exposed to precipitation now or in the foreseeable future? (Please check either “YES” or “NO” in the appropriate box.) **If you answer “YES” to any of the following questions (1) through (11), then your facility is not eligible for the No Exposure Exclusion.**

1. Using, storing or cleaning industrial machinery or equipment, or areas where residuals from using, storing or cleaning industrial machinery or equipment remain and are exposed to storm water. YES NO
2. Materials or residuals on the ground or in storm water inlets from spills or leaks. YES NO
3. Materials or products from past industrial activity. YES NO
4. Material handling equipment (except adequately maintained vehicles). YES NO
5. Materials or products during loading/unloading or transporting activities. YES NO
6. Materials or products stored outdoors except final products intended for outside use (e.g. new cars) where exposure to storm water does not result in the discharge of pollutants. YES NO
7. Materials contained in open, deteriorated or leaking storage drums, barrels, tanks, or similar containers. YES NO
8. Materials or products handled/stored on roads or railways owned or maintained by the discharger. YES NO
9. Waste material except waste in covered, non-leaking containers (e.g. lidded dumpsters). YES NO
10. Application or disposal of process wastewater unless otherwise permitted. YES NO
11. Particulate matter or visible deposits of residuals from roof stacks and/or vents not otherwise regulated (i.e. under an air quality control permit and evident in the storm water outflow). YES NO

E. CERTIFICATION – (Signature in accordance with Appendix B.7 of the 2012 IGP)

I certify under penalty of law that I have read and understand the eligibility requirements for claiming a condition of “No Exposure” and obtaining an exclusion from NPDES storm water permitting associated with industrial activity.

I certify under penalty of law that there are no discharges of storm water contaminated by exposure to industrial activities or materials from the industrial facility or site identified in this document (except as allowed under 40 CFR 122.26(g)(2)).

I understand that I am obligated to submit an Industrial NEE Certification form to EPD within thirty (30) days of the effective date of the 2012 IGP and to the operator of the local municipal separate storm sewer system (MS4) into which the facility discharges (where applicable). I understand that I must allow the EPD or an authorized representative of EPA, the State, or the local MS4 operator where the discharge is into the local MS4, to perform inspections to confirm the condition of No Exposure and to make such inspection reports publicly available upon request.

Additionally, I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based upon my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

NEE CERTIFICATION FORM – Version 2012

F. ADDITIONAL REQUIREMENTS

Facilities that claim the Industrial No Exposure Exclusion (NEE) are exempt from storm water permitting as long as the condition of No Exposure is maintained and, therefore, are not required to submit a Notice of Intent (NOI) for coverage under the 2012 IGP. Permitted facilities that are able to meet the requirements for the NEE at a later date will, after submitting the Industrial NEE Certification form, no longer be authorized by or required to comply with the 2012 IGP. Submittal of a Notice of Termination is not required prior to submittal of the Industrial NEE Certification form.

Owners and operators of facilities for which an NEE Certification form is submitted shall conduct quarterly inspections to ensure that a condition of No Exposure is maintained at the facility. The results of each such inspection shall be documented and maintained at the facility and available to EPD upon request. If an inspection shows that a condition of No Exposure does not exist, then the facility must be restored to a condition of No Exposure by implementing appropriate remedial measures within thirty (30) days of the inspection, or the facility owner or operator must submit a Notice of Intent (NOI) for coverage under the 2012 IGP by the end of that thirty (30) day period and must thereafter comply with the conditions of the 2012 IGP. The Director may revoke NEE status for any facility that does not adequately demonstrate that it complied or continues to comply with the NEE requirements.

Submission of this Industrial NEE Certification form constitutes notice that the entity identified in Section B does not require authorization for storm water discharges associated with industrial activity in the State of Georgia under the 2012 IGP due to the existence of a condition of No Exposure at the referenced facility. **The completed No Exposure Exclusion Certification should be submitted to the following address via return receipt/certified mail or similar service:**

**Georgia Environmental Protection Division
NonPoint Source Program
4220 International Parkway, Suite 101
Atlanta, Georgia 30354**

The Environmental Protection Division (EPD) does not acknowledge receipt of an NEE; therefore, the return receipt serves as confirmation of submittal. Retain a copy of the return receipt with a copy of the original NEE for your records.

This form and a copy of the 2012 IGP are available at: www.gaepd.org/Documents/IndustrialStormwater.html.

A condition of No Exposure exists at an industrial facility when all industrial materials and activities are protected by a storm resistant shelter to prevent exposure to rain, snow, snowmelt, and/or runoff. Industrial materials and activities include, but are not limited to, material handling equipment or activities, industrial machinery, raw materials, intermediate products, by-products, final products, or waste products. Material handling activities include the storage, loading and unloading, transportation, or conveyance of any raw material, intermediate product, final product, or waste product. A storm resistant shelter is not required for the following industrial materials and activities:

- Drums, barrels, tanks, and similar containers that are tightly sealed, provided those containers are not deteriorated and do not leak. "Sealed" means banded or otherwise secured and without operational taps or valves;
- Adequately maintained vehicles used in material handling;
- Final products, other than products that would be mobilized in storm water discharges (e.g. rock salt, etc.); and
- Manufacturing buildings, provided that material in the building is not exposed to storm water, that the exterior of the building is properly maintained (cleaned of any spilled materials, etc.), and that no industrial materials are exposed to storm water on the building roof.

An Industrial NEE Certification form must be provided for each facility qualifying for the Industrial No Exposure Exclusion. In addition, the exclusion from NPDES permitting is available on a facility-wide basis only and not for individual storm water outfalls. If any industrial activities or materials are, or will be, exposed to precipitation, the facility is not eligible for the Industrial No Exposure Exclusion.

By signing and submitting this Industrial NEE Certification form, the entity in Section B is certifying that a condition of No Exposure exists at the referenced facility or site and is obligated to comply with the terms and conditions of 40 CFR 122.26(g).
